

# JOB OPPORTUNITY BULLETIN

**BULLETIN RELEASE DATE:** July 10, 2000

**POSITION:** STAFF TOXICOLOGIST (Specialist)

(Position #811-130-7978-014)

**FINAL FILING DATE:** Until Filled

**MONTHLY SALARY:** \$5,480 - \$6,629

**DUTIES/RESPONSIBILITIES:** Under the general direction of the Senior Toxicologist, the Staff Toxicologist (Specialist) identifies, compiles and evaluates data in support of Health & Safety Code Section 43830.8 which provides for the development of a multi-media evaluation process to ensure that any proposed fuel specification regulation will not pose an adverse impact on public health or the environment. The project involves, but is not limited to, a comprehensive evaluation of proposed regulations to determine impact on public health or environment via all environmental pathways; perform literature searches and review industry data as part of the hazard identification and dose-response assessment; define need, update and develop new reference dose and cancer potency slopes; conduct exposure assessments; characterize health risks; conceptualize pilot studies; develop and monitor data collection contracts; perform in-depth evaluations of collected data to construct a framework for the multi-media, life-cycle evaluation methods, criteria and guidelines; conduct internal and external scientific peer reviews; respond to comments; serve as subject matter expert in the development and implementation of the multi-media, life-cycle project; provide technical assistance on the potential health risks associated with proposed fuel specification regulation, and represent OEHHA at meetings.

**DESIRABLE EXPERIENCE/QUALIFICATIONS:** Knowledge of and experience in: general principles in toxicology, with emphasis in environmental, motor vehicle fuels and hazardous waste/contaminants concerns; principles and procedures for risk assessment; laws, rules, and regulations pertaining to toxic substances; interpretation and application of environmental and public health research studies in the fields of toxicology for application to issues of public health. Demonstrated success in working cooperatively with internal staff, other governmental entities, industry, interest groups and the public. Experience/knowledge in developing risk assessment guidelines and toxicity criteria. Excellent oral and written communication skills and ability to analyze situations accurately and take effective action.

**WHO SHOULD APPLY:** State employees currently employed in the above classification, persons with current list, transfer or reinstatement eligibility, and state employees currently identified as surplus or on the SROA list.

**SUBMIT APPLICATIONS:** Office of Environmental Health Hazard Assessment  
Hazardous Waste Toxicology Section
